Full Time Position in Pumping System Design and Sale

Penn Pump and Equipment Company Inc., a well-established and growing Eastern Pennsylvania centrifugal pump manufacturer and distributor, is seeking a motivated candidate for a full-time inside sales associate position.

Job Description:

- Act as a customer service representative
- Assist in project management and sales
- Read blueprints, understand specifications, and design a pumping system based on job requirements
- Compile a submittal package including pumping system drawings and data
- Oversee the construction of pumping systems
- Survey existing pumping systems in the field for service and replacement

The ideal candidate possesses the following skills and experiences:

- A college or technical school degree
- Experience with centrifugal pumps and controls
- HVAC and plumbing experience
- Excellent communication skills, self-motivation, and exceptional capacity for learning
- Ability to read blueprints, understand specifications, and pumping controls
- Price estimation experience
- Proficient in Microsoft Office and QuickBooks
- Clean driving record

We offer a professional, non-smoking environment, in addition to a competitive benefits package. This is an excellent opportunity for long-term employment and advancement as the company continues to grow.

Please submit a cover letter and resume to sales@pennpump.com.
