Full Time Pump Service Technician

Penn Pump and Equipment Company Inc., a well-established and growing Eastern Pennsylvania centrifugal pump manufacturer and distributor, is seeking a motivated candidate for a full-time pump service technician position.

Job Description:

- Troubleshoot, repair, replace, and perform the start-up of commercial pumps and HVAC systems.
- Perform preventative maintenance, site surveys, replacement, and modifications as needed or requested by customers.
- Follow blueprints, wiring diagrams, piping schemes, and engineering specifications in order to diagnose and repair systems.
- Prepare for on-site installation and repairs of pumping systems by examining building layout, anticipating difficulties, gathering materials, and coordinating on-site work.
- Use power tools and computers.
- Maintain company vehicles by keeping records of service, scheduling, and ensuring the completion of repairs and maintenance.
- Keep all Penn Pump products current and up-to-date.
- Provide technical support to customers.
- Perform regular travel requirements with occasional overnight stays.

The ideal candidate possesses the following skills and experiences:

- Bachelor's Degree, Associates Degree, or equivalent from a technical school or apprenticeship, ideally in the field of HVAC or pumping systems.
- Ability to read, write, and comprehend simple instructions, short correspondence, and memos.
- Ability to effectively present information in one-on-one and small group situations to customers, clients, and other employees.
- Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Ability to compute rate, ratio, and percent and to draw and interpret bar graphs.
- Ability to define problems, collect data, establish facts, and draw valid conclusions. Ability to interpret a variety of technical instructions in mathematical or diagram form and deal with several abstract and concrete variables.
- Valid driver's license and clean driving record.
- EPA Approved Universal Technician Certification.
- License (e.g., HVAC Journeyman and / or Plumber, etc.)

We offer a professional, non-smoking environment, in addition to a competitive benefits package. This is an excellent opportunity for long-term employment and advancement as the company continues to grow.
